

Upside Down Flag – Sign of Distress, Not Disrespect

United States Code, 4 U.S.C. § 8(a)

Why do we think our country is in distress?

The President of the United States:

- Initiated an illegal war and occupation upon another sovereign nation based on lies
 - Violated UN Charter
 - Violated Geneva Accords
 - Violated Nuremberg Principles
 - Violated U.S. Constitutional provisions for treaties
 - There were no weapons of mass destruction in Iraq
 - Iraq did not have ties to al-Qaeda
 - Caused the deaths of **one million** (*Lancet* est.) Iraqis and 3,855+ Americans
- Violated International law and the Geneva Convention by authorizing torture and rendition
- Contracted with and provided immunity to renegade mercenary armies worldwide
- Conducted illegal wiretapping upon US citizens
- Initiated activities with the goal of suppressing free speech
- Committed high crimes and misdemeanors warranting impeachment
- Lowered our esteem among the nations and people of the world
- Failed to keep America's promise to take care of our veterans

Such actions are hardly in keeping with the letter or spirit of the U.S. Constitution, which we took an oath to defend upon entering the military. We believe we have the duty and right, as veterans, to speak out.

What do you think? We think it is worth talking about!
